How to use Walgreens or CVS photo service.

Install the Walgreens or CVS app on your smartphone.

Register with the app

When prompted, add the following:

1. Add your name
2. Add your email address
3. Add your phone number
4. Choose to receive notifications
5. Select the nearest Walgreens, CVS
6. Finish the registration process

Open the app and select Photo.

Choose Prints & Enlargements.

Select the photograph from your phone's Gallery.

Choose the print size (4×6, 5×7, or 8×10).

You normally have a choice for a glossy photo or a matte photo

Select your Walgreens CVS location.

Submit your order.

Walgreens or CVS will notify you when your photograph(s) are ready. Many locations offer pickup in approximately one hour.

The process is very similar on an iPhone.

I sent a photo to Walgreens specifying the desired size of the print, and within two hours I received an email notifying me that my printed photo was ready for pickup. The cost for the printed photo was **$.27**.
